(B) ADULT INTERPRETIVE EVENTS

Music: Skater's choice; Can be vocal, and can be of any nature

The interpretive program consists of a variety of skating moves selected for their value in enhancing the skater's interpretation of the music rather than for their technical difficulty. Jumps may be included, but credit will not be given for their technical difficulty. Credit for jumps and spins is based solely on the chosen theme, not merely a collection of pleasing or spectacular moves assembled to entertain an audience (exhibition/show program).

Although creative movement usually has a theme as a starting point, each movement need not be part of a coherent "story line". Movement expresses in aesthetic form the drives, desires, and reactions of alive human beings. It does not involve animals, fairies, ghosts or toys come to life, except as they might exist in the mind of the skater.

While many programs will, undoubtedly, reflect known themes from past ballet, opera, operetta or musical productions of the stage or screen, skaters should be encouraged to move beyond these to explore more original and personal concepts. Skaters choosing an unknown theme shall be rewarded. Programs might explore designs in abstract movement suggested by selected sound patterns, moods, or concepts.

An interpretive solo is intended through its process to increase body and choreographic vocabulary and awareness, by meeting specific content criteria. The criteria includes:

- Compositional Form / Development of Theme (e.g. a completed idea)
- Dynamics (e.g. sustained, collapse, sharp, smooth)
- Use of Space (e.g. planes, directions, indirect, asymmetric shapes)
- Use of full body (e.g. torso, head, hands, leg, feet)
- Use of Music (e.g. phrasing, style, awareness and sensitivity to musical elements while performing)

Skaters must submit, prior to the competition, a brief statement of the chosen theme.

*Skaters will be further divided by Age and / or Free Skate, Dance and Skating Skill test level at the discretion of the Technical Representative
