Duties of the Technical Controller:

- supervises and corrects (if necessary) the call of the Technical Specialists and the input of the names and correct Levels of Difficulty performed elements, however if both Technical Specialists disagree with correction, their initial decision stays;
- authorizes or corrects the deletion of elements;
- authorizes or corrects the identification of falls;
- authorizes or corrects the identification of illegal elements;
- confirms or corrects innovative element bonus;
- confirms the deletion of additional elements;
- moderates the Round Table Discussion together with the Event Referee (with the purpose of feed back among the Judges in regards to the application and validity of current regulations and discussions on the general quality of skating); the Technical Controller provides mainly the input regarding Technical Content;
- helps the Referee to prepare the Report;

Following are the minimum requirements for consideration of new candidates for the position of technical controllers at the level of "Sectional."

SECTIONAL LEVEL TECHNICAL CONTROLLER (recommended qualifications)

1. Must be a current member of Skate Canada (Associate or Coaching member) at the time of appointment.
2. Must be a former skater and be a current sectional referee, divisional or higher judge who is qualified to officiate under the CPC system or Challenge or higher technical specialist
3. Must demonstrate an on-going commitment to figure skating through regular activity in the sport and high technical knowledge as evidenced in officiating reports
4. Must abide by the officials code of conduct, as published in the Skate Canada rule book
5. Must pass the examination for Sectional level Technical Controller
6. Selection will be made in consideration of the above listed qualifications, anticipated and actual conflicts of interest, and on a needs assessment in consideration of the time and location of competitions in the 2009-2010 season.
